

FREEDOM: UNPARALLELED.

Give any smartphone the power of satellite connectivity. Supercharge your existing network with the motorola defy satellite link, an advanced satellite hotspot device that ensures peace of mind - whether travelling, participating in outdoor activities or wherever your next adventure takes you.

Satellite enabled

Never lose signal again. With our Bullitt Satellite Messenger service, you can always stay in touch with friends and loved ones - even where there's no WiFi or cellular reception.

Truly life-proof

Its IP68 rating means it's sand, grit, dirt, and dust-proof, and fully waterproof. It's also been drop-tested onto steel and exceeds the MIL-SPEC 810H standard.

SOS assist

Professionally staffed response centers, monitored 24/7 every day - provided by FocusPoint International.

Peace of mind

Check in, share your location, and send messages from remote places where you'd normally hunt for hours to get one-bar of

TECHNICAL SPECIFICATIONS

DESIGN:

Dimensions: 70 x 50 x 11mm
